

SUMMER 2020 LAWN CARE FOR CHESTERFIELD COUNTY SENIORS

A Community Initiative with: Chesterfield County Department of Community Enhancement in partnership with: the Middle District Baptist Association, Impact Mission Camps, and the Greater Richmond Community

As we head into the summer, your plans for camps, mission trips, and service projects have probably changed. If your group is still looking for a way to serve but cannot travel, we would love for you to partner with us to mow lawns for residents in Chesterfield County.

From the middle of June through the beginning of September we are asking civic organizations and churches to mow lawns for one week. We will provide you with the names and addresses of 25 (or less) seniors who have been pre-approved by Chesterfield County. You can divide the work throughout the week or organize one big event and mow all the lawns in a day-whatever works best for you! We will provide your group with personal protective equipment, safety guidelines, and participation waivers.

In an effort to partner with those in our community, we have invited residents to pay what they can for this service. Many are able to pay some but not able to do the physical labor. We invite your group to choose how to use the money you will earn whether this is to continue service projects at your own organization/church or give to another organization.
